FirstNet™

- Public Safety Entity Portal Homepage
- State/Territory Portal Homepage
  - FirstNet State/Territory Landing Page
    - Value Proposition - Governor's Team
    - *Executive Summary*
    - *State Priorities*
  - 1 FirstNet Background
    - Mission, Overview and Purpose
    - Possible Future Grant Opportunities
    - 1.1 State/Territory Plans Background
    - 1.2 Acquisition Background
  - 2 Consultation and Outreach Overview
    - 2.1 State Inputs
      - Data Collection
    - 2.2 State Consultation
      - State Consultation & Outreach
    - 2.3 Nationwide Engagement
  - 3 FirstNet RAN Plan Overview
    - 3.1 FirstNet Coverage Map
      - Band 14 Coverage (FOC)
      - Non-Band 14 Persistent Coverage (FOC)
      - Phases of Band 14 Deployment (IOC/FOC)
      - In-Building Coverage
      - *Urban Vs. Rural Layer*
      - *Tribal Layer*
      - *State-Provided Data Layers (i.e. CAD/Response Data)*
    - 3.2 RAN Deployment
      - Band 14 Capacity
      - RAN Planning and Design Parameters
      - RAN Strategy and Solutions
      - RAN Features and Services - User Experience Impacts
      - RAN Partnerships
      - RAN Hardening
      - Spectrum Clearing
      - Deployables for Temporary On-Demand Coverage
      - Early Builder Integration
      - RAN Capacity Enhancements
      - RAN Coverage Expansion
      - RAN Technology Roadmap
      - Network Evolution and Change Management
      - International Border Frequency Coordination
  - 4 FirstNet Operations and Network Policies
    - 4.1 Network Integration and Policy Compliance
    - 4.2 Network Solution
      - 4.2.1 Network Operations
        - Network and Service Operations
        - Operational Support Systems
        - Services Management Center
        - Service Availability
        - Customer Care and Life-Cycle Sustainment
      - 4.2.2 Security
        - Cybersecurity Overview
        - Public Safety Security
        - Architecture Security
        - Device Security
        - Applications Security
        - ICAM Security
        - PSEN Security
        - Cybersecurity Life-Cycle
        - Cybersecurity Systems Engineering
        - Risk Management
        - Cybersecurity Incident Response
        - Security Operations Center
        - Continuous Diagnostic Monitoring and Management
        - Cybersecurity Testing and Certification
        - Network and Configuration Management
        - Environmental and Physical Security
        - Information Security and Data Sensitivity
        - Test Strategy
      - 4.2.3 Core Architecture & Infrastructure
        - State-Deployed RAN Integration
        - Core Architecture & Infrastructure Overview
        - Nationwide Core Network Architecture and State Integration
        - Logical Architecture
        - CLA User Integration
        - Key Core Network Locations
        - Network Specifications, Design Criteria, and Operational Metrics
        - Session Continuity
        - Roaming Strategy
        - Roaming Partner Integration
        - IP Strategy
        - Heterogeneous Network Integration
        - Transmission Systems Strategy
        - Transport Security
        - Routing and DRA Strategy
        - Transport Service Prioritization
        - Interconnection and Internetworking
        - PSEN and PSAP Integration
        - PSTN, ISP, and Peering Integration
        - PLMN and Roaming Partner Integration
        - Support for Land Mobile Radio Network Integration
        - Public Safety Grade
        - Operational Management Approach
        - Network Implementation
        - Integration with Partners
        - Network Naming and Identification
        - Design Assumptions
        - Numbering Plan
        - MVNO to NPSBN Core/RAN Migration
        - Mobile Number Portability
        - Non-RAN IOC/FOC Milestones
        - Mission-Critical Services
        - FirstNet Long-Term Network Commitment
  - 5 Governor's Review of State Plan
    - Summary/Timeline of the State Plan Decision
    - Opt-In – Next Steps (Ongoing Consultation)
    - Opt-Out – Next Steps
    - 5.1 Acceptance Guide
    - 5.2 Opt-Out Guide
      - 5.2.1 Processes and Requirements
        - 5.2.1.1 180-Day RFP Process
        - 5.2.1.2 FCC Technical Review
        - 5.2.1.3 NTIA Technical Review
          - *Technical Capability and Funding*
          - *Maintain Ongoing Interoperability*
          - *Comparable Timelines*
          - *Cost-Effectiveness*
          - *Comparable Security, Coverage, and Quality of Service*
        - 5.2.1.4 Spectrum Lease Agreement w/ FirstNet
          - SMLA Information
      - 5.2.2 Opt-Out Financials
        - NTIA Funding Level Determination
        - Opt-Out State/Territory Payments (SMLA, Core Connection, Integration, etc.)

FIRSTNET VALUE PROPOSITION

SERVICE PLANS & PROCUREMENT | COVERAGE | DEVICES & BYOD | BASIC SERVICES

TRUE PRIORITY (QPP) | ICAM | FIRSTNET APP STORE | LOCAL CONTROL

PSE HOMEPAGE | APP DEVELOPMENT | HOSTING & CLOUD SERVICES | IN-BUILDING SOLUTIONS

DEPLOYABLES | TRAINING | CUSTOMER CARE | CYBERSECURITY
